| INGESTION  | DO NOT induce vomiting. Never give anything by mouth to a person vunconscious or is having convulsions. If exposed or concerned: Get me advice/ attention.   | who is   |
| SYMPTOMS AND EFFECTS, ACUTE OR<br>DELAYED<br>NOTE TO THE PHYSICIAN   | May cause severe skin sensitization with allergic contact dermatitis syr<br>such as swelling, rash and eczema. May be mildly irritating to skin, eye<br>respiratory system. Exposure may cause temporary irritation, redness of<br>discomfort. Symptoms may include upper respiratory irritation, coughi<br>breathing difficulties. Ingestion may cause gastrointestinal irritation, na<br>vomiting and diarrhea.<br>In the event of accidental exposure immediate medical attention is requ   | es and<br>or<br>ing and<br>ausea,  |
|  | symptomatically.   |  |
| SECTION  | N 5: FIRE-FIGHTING MEASURES  |  |
| SUITABLE EXTINGUISHING MEDIA<br>UNSUITABLE EXTINGUISHING MEDIA<br>SPECIAL HAZARDS ARISING FROM THE                         | Carbon dioxide ( $CO_2$ ), dry chemical or alcohol resistant foam, water fo<br>Do not use a solid water stream as it may scatter and spread fire.  | -  |
| SUBSTANCE OR MIXTURE<br>FLAMMABILITY CLASSIFICATION<br>HAZARDOUS COMBUSTION PRODUCTS<br>FIRE-FIGHTERS PROTECTIVE EQUIPMENT | The pressure in sealed containers can increase under the influence of he<br>Not flammable, according to OSHA 29 CFR 1910.106.<br>Carbon oxides; Acids; Phenols; Aldehydes; other unidentified compou<br>Fire-fighters must use standard protective equipment including flame r<br>coat, helmet with face shield, gloves, rubber boots and in enclosed space<br>fighters should wear an approved full face, self-contained breathing ap   | ınds.<br>retardant<br>.ces, fire-  |
| SPECIAL FIRE FIGHTING PROCEDURES   | (SCBA) and impervious clothing.<br>Move containers from fire area if safe to do so. Cool closed containers<br>to fire with water spray. Do not allow run-off from the firefighting to e<br>or water courses. Dike for water control.   |  |
| SECTION 6:   | ACCIDENTAL RELEASE MEASURES  |  |
| PERSONAL PRECAUTIONS, PROTECTIVE<br>EQUIPMENT, EMERGENCY PROCEDURES<br>ENVIRONMENTAL PRECAUTIONS                           | Keep people away from and upwind of spill/ leak. Restrict access to ar<br>completion of clean-up. Wear appropriate protective equipment. Refer<br>protective measures listed in Sections 7 and 8.<br>Prevent product from entering drains, sewers, waterways and soil.   |  |
| METHODS AND MATERIAL FOR<br>CONTAINMENT AND CLEAN-UP   | Ventilate the area. Remove all sources of ignition. Prevent further leak<br>spillage if safe to do so. For spilled liquids absorb with inert, non-com<br>material such as sand, then place into suitable containers. Pick up and to<br>properly labelled containers. Contaminated absorbent material may pos-<br>same hazards as the spilled product. Contact the proper local authorities<br>Section 13 for disposal of contaminated material.  | bustible<br>transfer to<br>use the   |
| SECTIO   | N 7: HANDLING AND STORAGE  |  |
| PRECAUTIONS FOR SAFE HANDLING  | Obtain special instruction before use. Do not handle until all safety pre<br>have been read and understood. Persons with recurrent skin eczema or<br>sensitization problems should be excluded from working with this pro-<br>a person is sensitized, no further exposure to the material that caused th<br>sensitization should be permitted. Provide adequate ventilation. Wear se<br>protective equipment during handling. Wear protective gloves/ clothing<br>face protection. Avoid breathing vapours. Avoid contact with skin, eye<br>clothing. Keep away from extreme heat and flame. Keep away from in<br>materials. Keep containers closed when not in use. Wash thoroughly at<br>handling. Contaminated work clothing must not be allowed out of the | duct. Once<br>he<br>suitable<br>g and eye/<br>es and<br>compatible<br>fter |
| CONDITIONS FOR SAFE STORAGE  | Store in cool/ well ventilated place. Store locked up. Storage area shou<br>clearly identified, clear of obstruction and accessible only to trained an<br>authorised personnel. Inspect periodically for damage or leaks.  | ild be   |

| SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION |  |  |
| EXPOSURE LIMITS                                    | Contains no substances with occupational exposure limit values.  |  |
| EXPOSURE CONTROLS:                                 | contains no substances with occupational exposure minit values.  |  |
| VENTILATION/ ENGINEERING MEASURES:                 | Provide adequate ventilation. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation, wear suitable respiratory equipment.  |  |
| RESPIRATORY PROTECTION                             | If airborne concentrations are above the permissible exposure limit or are not known, use NIOSH-approved respirators. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29CFR 1910.134) or CSA Z94.4-02. NIOSH approved organic vapour cartridge respirators are recommended. Advice should be sought from the respiratory protection specialists.   |  |
| SKIN PROTECTION                                    | Wear protective gloves/ clothing. Gloves impervious to the material are<br>recommended. Where extensive exposure to product is possible, use resistant<br>coveralls, apron and boots to prevent contact. The material suitability for specific<br>workplaces should be discussed with the producers of the protective gloves.  |  |
| EYE/ FACE PROTECTION                               | Wear eye/ face protection. Chemical splash goggles are recommended. A full face shield may also be necessary.  |  |
| OTHER PROTECTIVE EQUIPMENT                         | An eyewash station and safety shower should be made available in the immediate working area.   |  |
| GENERAL HYGIENE CONSIDERATIONS                     | Do not eat, drink, smoke or use cosmetics while working with this product. Do<br>not breath dust or mist. Avoid contact with eyes, skin and clothing. Barrier<br>creams may help to protect the exposed areas of skin; they should however not<br>be applied once exposure has occurred. Upon completion of work, wash hands<br>before eating, drinking, smoking or use of toilet facilities. Remove and wash<br>contaminated clothing before re-use. Contaminated clothing must not be allowed<br>out of the workplace. |  |

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

| PHYSICAL STATE                    | Liquid<br>Opaque soft gel with thixotropic consistency<br>Mild Hydrocarbon<br>Not available<br>Not available<br>Not available<br>>170°C (338°F) T.C.C.<br>Not available<br>Not available<br>Not available<br>Not available<br>1.14 grams/mL<br>Soft gel<br>Not available<br>0 grams/L |
|-----------------------------------|---|
| OC's (Volatile Organic Compounds) | 0 grams/L   |
| OLUBILITY IN WATER (%W/W)         | Insoluble.  |

### SECTION 10: STABILITY AND REACTIVITY

| REACTIVITY                       | Not normally reactive.  |
|----------------------------------|---|
| CHEMICAL STABILITY               | Stable under the recommended storage and handling conditions prescribed.        |
| HAZARDOUS REACTIONS              | Hazardous polymerization does not occur.  |
| CONDITIONS TO AVOID              | Avoid direct sources of heat. Do not use in areas without adequate ventilation. |
|                                  | Avoid contact with incompatible materials.                                      |
| INCOMPATIBLE MATERIALS           | Strong Oxidizing Agents Strong Acids. Strong Bases.                             |
| HAZARDOUS DECOMPOSITION PRODUCTS | Refer to hazardous combustion products, Section 5.                              |
|                                  |   |

| INGREDIENTS LD50/ LC50 DATA       Refer to Section 3.         OTHER TOXICOLOGICAL HAZARDS       None known.         SECTION 12: ECOLOGICAL INFORMATION         ECOTOXICITY       No data is available for the product itself. However, some ingredients listed in the chemical composition are toxic to aquatic life with long lasting effects. Therefore, the product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.         PERSISTANCE AND DEGRADABILITY       The product itself has not been tested.         BIOACCUMULATION POTENTIAL       No data is available on the product itself.         MOBILITY IN SOIL       No data is available on the product itself.         OTHER ADVERSE ENVIRONMENTAL       No data is available on the product itself.         EFFECTS       No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.         SECTION 13: DISPOSAL CONSIDERATIONS       HANDLING FOR DISPOSAL         HANDLING FOR DISPOSAL       Handle in accordance with good industrial hygiene and safety practice. Refer to protective measures listed in Sections 7 and 8.         METHODS OF DISPOSAL       Dispose in accordance with all applicable federal, state, provincial and local regulations. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.         SECTION  | SYNERGISTIC MATERIALS                         | None known.  |                                   |  |  |
